

Assessment Details

Philip Gosschalk MAPS

BA, GradDipEd, MEdSt, PGDipPsych, MPsyChlin

Psychologist

Philip is the Director of *childpsych*. He has extensive experience with children as a teacher, school psychologist and child psychologist. Philip has advanced training in clinical psychology and education. His particular expertise is with the treatment of anxiety and mood disorders in children and adolescents, assessment of learning and developmental problems and the management of behaviour problems. He has conducted research on the nature of anxiety and personality in children and published research about children who refuse to attend school because of anxiety. Philip has a particular passion about the involvement of parents as co-therapists in treating their child's problems, which is reflected in the practice's core value of *interdependence*.
